

Dear Kerrie and HPC

In the past month the NP group have put in the grant application to Locality and expect to hear back if we have been successful, or if they need any further details, within the next 2 weeks.

Details are;

Total grant for this financial year to meet costs payable to CCP
£6200 (not including vat which will be paid and reclaimed by the PC).

extra grant for Covid related expenses available from Locality for this year only towards perhaps zoom or any other costs associated,
£620

=£6820 total grant applied for.

For full breakdown see the previously sent quote from CCP, also the link to the grant form is still available to the clerk and the PC to view or save on the previously sent email link sent to the clerk.

We have also been working with Icarus and Coastal partnership East on the production of the survey. There have been some changes with this as Louise Cornell advised against putting our full survey out with the Icarus survey and to be more focussed on coastal issues that will evidence towards our NP policy regarding these issues. Our survey will most likely go out in July after we have formally employed Collective Community Planning.

Regards

Tracy Foster on behalf of
HNP Steering Group
